Physics Lib
Serial

SECTION A—VOL. XXV

No. 1—January, 1947

PAGE

Flame Spectra of Copper Salts . . . . . *Nand Lal Singh* 1

Insecticidal Properties and Chemical Constitution. Part I. Some Simple Flavone Derivatives . . . . . *V. V. Sreerama Murti, N. V. Subba Rao and T. R. Seshadri* 22

Transverse Vibrations of Rectilinear Plates . . . . . *B. R. Seth* 25

Bromination of Compounds Containing Two Aromatic Nuclei. Part IV. Bromination of Aryl Esters of Para-Cresotic Acid . . . . . *G. V. Jadhav and M. Aslam* 30

Effect of Illumination on the Apparent Shape of the Sky . . . . . *D. Venkateswara Rao* 34

Pajaneelin, A Bitter Component of *Pajaneelia Rheedii* . . . . . (*Miss*) *A. Kameswaramma and T. R. Seshadri* 43

An Improved Rapid Chemical Method for Estimation of Calcium in Calcareous Soils . . . *K. L. Khanna, S. N. Prasad and P. B. Bhattacharya* 51

Improvements in Colorimetric Determinations. I. Phosphates Correlation between Total and Dilute Acid Soluble Phosphate in Non-Calcareous Soils . . . . *K. L. Khanna, S. N. Prasad and P. B. Bhattacharya* 55

On A Polynomial Arising in the Theory of Elementary Particles . . . . . *V. R. Thiruvenkatachar* 67

An Electronic Reverberation Recorder . . . . . *N. B. Bhatt and D. L. Subrahmanyam* 70

No. 2—February, 1947

Differentiation Trends in the Deccan Traps . . . . . *N. A. Vemban* 75

Emission Bands of Halogens. Part II. Iodine Bands arising in $1_g\,(^3\Pi_{1g})$ and $\Pi_{2,\,1g}$ States . . . . . *Putcha Venkateswarlu* 119

Emission Bands of Halogens. Part III. Iodine Bands arising in $1_u\,(^3\Sigma_u^+)$ and $1_g\,(^1\Pi_g)$ States . . . . . *Putcha Venkateswarlu* 133

Emission Bands of Halogens. Part IV. Diffuse Bands of Bromine . . . . . *Putcha Venkateswarlu* 138

Finite Longitudinal Vibrations . . . . . *B. R. Seth* 151

Chemical Examination of *Artemisia scoparia* Waldst. and Kit. Isolation of an Essential Oil and a Lactone . . . . . *Dharam Bal Parihar and Sikhibhushan Dutt* 153

PAGE

Luminescence in the Solid State: Boric Acid as Base. Part III. Azo-Dyes from *o*-Hydroxy-Carbonyl Compounds as Activators . . . . . *K. Neelakantam, S. Narayanan and M. V. Sitaraman* 159

Hysteresis in Sorption. XI. Permanence of Sorption-Desorption Hysteresis . . . . . *T. Krishnappa, K. Subba Rao and B. Sanjiva Rao* 162

Hysteresis in Sorption. XII. Influence of the Temperature of Activation of Silica Gel on the Hysteresis Effect . . . . . *T. Krishnappa, K. Subba Rao and B. Sanjiva Rao* 174

Hysteresis in Sorption. XIII. Mode of Preparation of Silica Gel and Its Influence on Hysteresis . . . . . *T. Krishnappa. K. Subba Rao and B. Sanjiva Rao* 181

Hysteresis in Sorption. XIV. Influence of the Temperature of Activation of Titania Gel on the Hysteresis Effect . . . . . *R. S. Subramanya, K. Subba Rao and B. Sanjiva Rao* 186

Very High Frequency Sound Velocities in Acetone Water Mixtures . . . . . *B. Ramachandra Rao* 190

Torsional Oscillations in Quartz Plates . . . . . *S. Ramachandra Rao* 195

The Magnetic Properties of Iron-Pyrites . . . . . *S. Ramaseshan* 201

Photoelastic Constants of Diamond . . . . . *G. N. Ramachandran* 208

No. 3—March, 1947

Hysteresis in Sorption. XV. Hysteresis in the Sorption of Water on Casein, Egg Albumin and Gelatin . . . . . *G. N. Subba Rao, K. Subba Rao and B. Sanjiva Rao* 221

Hysteresis in Sorption. XVI. Sorption of Water on Some Indian Soils and Soil Fractions . . . . . *Miss Sharda Gulvady, K. Subba Rao and B. Sanjiva Rao* 229

Ultrasonic Velocity in Liquids at High Frequencies . . . *T. Ravindranath* 235

Anisotropy in the Elastic Behaviour of Rocks . *G. H. S. V. Prasada Rao* 238

Interaction of Nitrous Oxide, Nitrogen and Phosphorus under Silent Electric Discharge . . . . . *G. S. Deshmukh and Y. D. Kane* 247

The Scattering of Light in Quartz . . . . . *V. Chandrasekharan* 256

The Dispersion, Birefringence and Optical Activity of Quartz . . . . . *T. Radhakrishnan* 260

Thermo-Optic Behaviour of Solids. I. Diamond . *G. N. Ramachandran* 266

Thermo-Optic Behaviour of Solids. II. Fused Quartz . *G. N. Ramachandran* 280

Thermo-Optic Behaviour of Solids. III. Fluorspar . *G. N. Ramachandran* 286

No. 4—April, 1947 PAGE

Isobars in the Tropics—Some Basic Ideas of Tropical Meteorology . . . . . *S. L. Malurkar* 297

A Simple Nomogram for the Rate of Ascent of Rubber Balloons and Improved Technique with Balloons and Balloon Material *S. L. Malurkar* 307

Congruence Properties of σ_a (N) . . . . . *K. G. Ramanathan* 314

The Preparation and Properties of 4-Phenylacetyl-Resorcinol and 4-Phenylacetyl-Pyrogallol. *K. S. Bhumgara, R. D. Desai and W. S. Waravdekar* 322

The Fries Reaction. Part I. The Rearrangement of the Esters of Hydroxy-Coumarins . . . . . *R. D. Desai and C. K. Mavani* 327

A Note on the Nuclear Methylation of Lecanoric Acid . . . . . *V. Venkateswarlu* 331

Insecticidal Properties and Chemical Constitution. Part II. Coumarins . . . . . *V. V. Sreerama Murti and T. R. Seshadri* 333

Insecticidal Properties and Chemical Constitution. Part III. Some Partial Methyl Ethers of Hydroxyflavones . . . . . *T. R. Seshadri and N. Viswanadham* 337

Heterocyclic Compounds. Part XVII. Coumarins from β-Ketonic Esters and 5-methyl-2-ethyl, 5-methyl-2-propyl-, 5-methyl-2 : 4-diethyl-4-Ethyl-2-benzoyl-resorcinols, and Phlorobenzophenone . . . . . *R. D. Desai and C. K. Mavani* 341

Heterocyclic Compounds. Part XVIII. Condensation of Cyclic-β-Ketonic Esters with Methyl-β-Resorcylate and Resacetophenone in Presence of Anhydrous Aluminium Chloride . . . . . *R. D. Desai, M. M. Gaitonde, S. Mahdi Hasan and R. C. Shah* 345

Heterocyclic Compounds. Part XIX. The Kostanecki Acetylation of γ-Orcpropiophenone and γ-Orcbutyrophenone and Formation of 5-Hydroxy-2 : 3 : 7-Trimethylchromone and 5-Hydroxy-2 : 7-Dimethyl-3-Ethyl-Chromone . . . . . *R. D. Desai and M. M. Gaitonde* 351

Heterocyclic Compounds. Part XX. The Kostanecki Acylation of Quinacetophenone, Quinbenzophenone and γ-Orcacetophenone, and Synthesis of 6-Hydroxy and 5-Hydroxy Chromones and Coumarins . . . . . *R. D. Desai and C. K. Mavani* 353

Studies in Naphthalene Series. Part XV. The Preparation and Properties of 4-Phenylacetyl-1-Naphthol and 2-Phenylacetyl-1-Naphthol . . . . . *K. S. Bhumgara, R. D. Desai and W. S. Waravdekar* 359

Friedel-Crafts Reaction. Part IX. The Action of Propionic and Butyric Anhydrides on Orcinol and Further Evidence of γ-Substitution in Resorcinol Derivatives . . . . . *R. D. Desai and M. M. Gaitonde* 364

PAGE

Studies on the Nature of the Racemic Modification of Optically Active Compounds. Part V. Roozeboom Solubility Composition Isotherms for Mixtures of Active and Inactive Camphoric Acids in Water at 25° C., 45° C., and 100° C. . *Bawa Kartar Singh and Bal Kishore K. Nayar* . 368

Thermo-Optic Behaviour of Solids. IV. Zinc-Blende. *G. N. Ramachandran* 375

Temperature Variation of the Refractive Indices of Quartz . . . . . *T. Radhakrishnan* 382

No. 5—May, 1947

Studies on the Nature of the Racemic Modifications of Optically Active Compounds in the Solid State. Part VI. The Nature of the Racemic Modifications of 3-Nitro-*p*-toluidino-, 5-Iodo-*o*-toluidino, 4-Nitro-*o*-toluidino-, Oxy-, 2-Nitro-*p*-toluidino-, 3-Nitro-4-chloroanilino-, 2 : 5-Dichloroanilino- and 4-Chloro-*o*-toluidino-methylenecamphors . . . . . *Bawa Kartar Singh and Ram Kumar Tewari* 389

Constitution of Gossypin—Part II . . . . . *K. Visweswara Rao and T. R. Seshadri* 397

Samarskite from Nellore District. Part I. Uranium and Earth Acid Contents . . . . . *C. Karunakaran and K. Neelakantam* 404

Dielectric Constants of Crystals. I. Different Types of Quartz . . . . . *D. A. A. S. Narayana Rao* 408

Elastic Constants of Magnetite, Pyrite and Chromite . *M. S. Doraiswami* 413

Nuclear Oxidation in the Flavone Series. Part I. A New Synthesis of Gossypetin and 8-Hydroxy-Galangin . . . . . *K. Visweswara Rao and T. R. Seshadri* 417

Nuclear Oxidation in the Flavone Series. Part II. Synthesis of Norwogonin and Isowogonin . . . . . *K. Venkateswara Rao, K. Visweswara Rao and T. R. Seshadri* 427

Nuclear Oxidation in the Flavone Series. Part III. A New Synthesis of Primetin . . *S. Rajagopalan, K. Visweswara Rao and T. R. Seshadri* 432

Synthetical Experiments in the Chromone Group. Part XXI. Synthesis of Gentisin, the Colouring Matter of Gentian Root . . . . . *Nity Anand and K. Venkataraman* 438

Nuclear Oxidation in the Flavone Series. Part IV. New Synthesis of Herbacetin and Hibiscetin . . . *K. Visweswara Rao and T. R. Seshadri* 444

Colouring Matter of Tambul Seeds. Part I. Tambuletin . . . . . *K. J. Balakrishna and T. R. Seshadri* 449

Localisation of the Discharge Tubes. Part II . . . *V. T. Chiplonkar* 453

PAGE

Faraday Effect in Some Cubic Crystals . . . . . *S. Ramaseshan* 459

Anthraquinone Series. Part I. 1-Aminoanthraquinone-2-aldazine . . . . . *S. V. Sunthankar and K. Venkataraman* 467

No. 6—June, 1947

Thermo-Optic Behaviour of Solids. Part V. Alkali Halides . . . . . *G. N. Ramachandran* 481

Thermo-Optic Behaviour of Solids. Part VI. Optical Glasses . . . . . *G. N. Ramachandran* 498

Influence of the Applied Potential on the *Joshi-Effect* . . . . . *B. N. Prasad and T. C. Jain* 515

The Structure of Ozone—an Interpretation of its Magnetic Susceptibility . . . . . *S. V. Anantakrishnan* 520

Zur Ableitung Des Magnetischen Moments Des Elektrons . . . . . *Von V. S. Vrkljan in Zagreb* 523

The Strongest Topology on a Linear Space Subject to Given Condition . . . . . *V. Ganapathy Iyer* 529
